

Dear hiring manager,

Throughout my professional career my experience has ranged from Senior E-Commerce Developer (McAfee.com) to Director of Web Development (MedAmerica) to my most recent position as Sr. Programmer/Analyst at the UCSF Medical Center.

In these roles I have successfully managed a variety of IT projects. I have been involved in the analysis and design, development, testing, and ongoing support of web based applications. I have a proven track record of helping organizations achieve their IT and business goals.

Results achieved to date include:

- Developed Total Parenteral Nutrition (TPN) Order Calculator which after QA and a successful clinical trial is now in use at UCSF in the intensive care nursery.
- Developed McAfee.com web portal.
- Managed and developed 5 medical websites.

You will find that I am a seasoned, competent professional. I have excellent references from those that have worked closely with me. I can be contacted at 415.850.9518 or gregor_fisher@yahoo.com.

Sincerely,

Gregor Fisher

Master of Science in Information Technology Management (MSITM)
